

Electric Winches

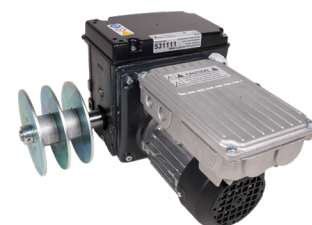

5600

The new compact **RW45 Drive** delivers powerful, quiet, maintenance free performance, creating ideal climates across a wide range of agricultural and industrial applications. Engineered for versatility, this precision winching solution can operate multiple inlets, tunnel doors, curtains, nest closures, and pop hole doors with dependable accuracy. The RW45 comes equipped with a simple-to-set patented limit switch, further maximizing the price-to-performance ratio.

The **RW45** includes a mounting bracket and a single- or double-strap hub, making installation flexible and easy. With 120V/240V, 50/60Hz compatibility, it efficiently supports up to 1250 lbs. on cable or up to two straps, providing simple integration into new or existing installations.

- Maximized Price-to-Performance Ratio
- Dependable; Maintenance-Free
- Patented Limit Switch Assembly
- Low Noise Operation
- Flexible Installation
- Eliminate Switch and Board Failures
- 2-Year Warranty
